Dear Mr. Ricketts,

Thank you again for your letter of October 28 requesting a speaker from the Central Intelligence Agency for your December meeting. This will confirm the regrets I expressed by phone to a member of your office staff to the effect that unfortunately we will not be able to provide a speaker for your December meeting.

The Agency does indeed want to do more in providing information to the public on our history and mission as you request, and to that end we will keep your interest in mind. Should one of our speakers be scheduled for a visit to your area we will let you know well in advance in the event you wish to schedule a talk at some mutually convenient future date.

Your interest is appreciated.

Sincerely

Deputy Assistant to the
Director of Central Intelligence
